Healthcare Consulting & Management Experience

Consultant & Physician Advisor
KERACIS, LLC
Arlington, VA and Reykjavik, Iceland

2021-present

Physician Advisor and Consultant for company which produces and sustainably harvests intact fish skin used for cellular growth and tissue regeneration. The company's mission is to become a world leader in

regenerating damaged human tissues by sustainably harnessing nature's own remedies. I have worked with the company to share clinical experiences, best practices and create a curriculum to integrate the product responsibly within the field of facial reconstructive surgery.

Consultant & Physician Advisor
HealthTrust
Nashville, Tennessee

2017-present

Physician Advisor and Consultant for the largest group purchasing organization for hospital systems in the nation. The mission of HealthTrust is to provide a comprehensive set of advisory services for providers and health systems to optimize value from supply chain, workforce and clinical integration capabilities. I have assisted with lending guidance in the disciplines of Plastic Surgery and Wound Care by providing real world expertise in new and existing product development and clinical incorporation.

Consultant, Advisory Board Member & Principal Investigator
TELA Bio™ Surgical Reconstruction
Malvern, Pennsylvania

2015-present

Physician Lecturer, Advisory Board Member and Key Opinion Leader involved with initial use, preliminary research with Ovitex™ surgical reconstruction mesh in abdominal wall reconstruction. Principal Investigator for IRB approved study involving Ovitex™ in abdominal ventral hernia repair (i.e. BRAVO Study). Spearheading strategic product design and preliminary FDA pre-submission application for applications of Ovine-PGA mesh in breast reconstruction and cosmetic breast revisional surgery. Intimately involved with professional education for surgeons on use of Ovitex™ as well as sales-force education on concepts in abdominal wall reconstruction and hernia repair.

Consultant & Advisory Board Member
MENTOR® WORLDWIDE LLC, a Johnson & Johnson Company
Irvine, California

2013-present

Physician Lecturer, Advisory Board Member and Key Opinion Leader intimately involved with aesthetic and reconstructive use of market-leading breast prostheses and tissue expanders. Assisted with the design, development, strategic marketing and continued global and U.S.-based professional education with the clinical use of ARTOURA® Breast Tissue Expander, MemoryGel™ Silicone Gel-Filled Breast Implant and MemoryShape™ Silicone Breast Implant. Projects include development of clinical best-use strategies, live lectures and webinars for professional education, video development for patient breast cancer "patient journey" and development of clinical white papers for illustrative use of the the MENTOR® portfolio of breast products.
